EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with To Phan Kerr on 3 February 2011.

The application has been amended as follows:

Specification

In the Specification at page 1, paragraph [01], please amend as follows:

--This Application claims priority from co-pending US provisional Application Serial No. 60/410,803 filed September 16, 2002, the contents of which are incorporated herein by reference. The disclosure of U.S. Application 09/691,053, filed October 19, 2000, now US Patent 6,871,171, is also incorporated herein by reference.--

In the Specification at page 1, paragraph [03], please amend as follows:

--[http://www at the site fda.gov/cder/handbook/develop.htm](http://www.fda.gov/cder/handbook/develop.htm)--

Claims

In claim 7, please amend to read as follows:

--The method of claim 1, wherein in step (i), the small-scale clinical trials are performed in parallel for a chosen clinical indication by a chosen treatment regimen.--

In claim 15, please amend to read as follows:

--A method of performing interactive clinical trials for a new drug for cancer related studies, resulting in clinical trial designs, the method comprising a step of administering at least a single dose of a drug in vitro or in vivo to obtain data for a pre-clinical phase in which a computer model for pharmacokinetics and pharmacodynamics is created and adjusted based on data from in vitro studies and optionally in vivo studies in animals, wherein that pre-clinical phase is performed in parallel with simulated computer predictions, and wherein the simulated computer predictions are compared with the pre-clinical results and the comparison is used to adjust the computer model, wherein the computer model is an in silico patient that is adjusted according to the results of the pre-clinical trials.--

Claim Rejoinder

Claims 1-21 are allowable. Claims 10 and 12, previously withdrawn from consideration as a result of a restriction requirement, meet all the limitations of an allowable claim. Pursuant to the procedures set forth in MPEP § 821.04(a), **the restriction requirement between species, as set forth in the Office action mailed on 20 March 2006, is hereby withdrawn** and claims 10 and 12 hereby rejoined and fully examined for patentability under 37 CFR 1.104. In view of the withdrawal of the restriction requirement, applicant(s) are advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once the restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are

Art Unit: 1631

no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

Reasons for Allowance

The following is an examiner's statement of reasons for allowance: Claims 1-21 are allowed for the reasons of record and in view of the Interview conducted on 5 January 2011. Specifically the prior art does not teach or fairly suggest the method of performing interactive clinical trials that includes performing clinical trials and computer simulations in parallel using a constructed computer model, as claimed herein.

It is further noted that the Rooney et al. reference, cited in the Office Action of 25 June 2010 fails to teach the parallel, feed-forward method of the instant claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Drawings

The Drawings submitted on 2 February 2007 have been accepted.
